20% Practical labs	40% Assignment One	40% Assignment Two
	(1a: HTML & CSS)	(SemanticUI)
	(1b: Layout)	

Assignment One – Personal website – 40%

Part 1a: HTML & CSS – 20% – due Sunday 31st October

Part 1b: Layout – 20% – due Sunday 21st November

Content (1a):

For assignment one, you should create a personal website; a website about you, your hobbies, and interests. It must include your name and a photograph of you; other than that, the content is up to you.

HTML (1a):

Your website should consist of **3-5 webpages** and use a wide variety of HTML elements. Try to include:

- Paragraphs
- Headings
- Blockquotes
- Images
- Lists (ordered and unordered)
- Internal links (all webpages in the website should link to one another)
- Structural elements (e.g. header, footer, main, nav)
- External links (to other websites)

Your website should be **deployed** to a web server. Lastly, check that your HTML code is valid here:

https://validator.w3.org/

CSS (1a):

Include a CSS file to add style to your webpages. The styles are up to you, but you should make use of the following:

- Font and text styles
- Link styles (including styles for the different link states)
- Background colours
- At least one class
- At least one id
- At least one descendant selector

Check that your CSS code is valid:

https://jigsaw.w3.org/css-validator/

Submission (1a):

Your website must be deployed to a web server.

To submit your assignment, copy the URL of your website into the upload area on Moodle (click add submission, then paste into the text box provided).
